

Season 1001.2

- **Serged Spaghetti Strap made Fast and Easy!**

Fabric: All the fabrics I use on **It's Sew Easy TV** come from [Vogue Fabrics](#)
Patterns and Sewing Supplies: [The Angela Wolf Pattern Collection](#)

Creating spaghetti straps with the serger couldn't be easier.

1. Measure the length you want your spaghetti strap, and cut a strip of fabric 1 inch wide by the length of the strap.
2. Serge a chain stitch longer than the length of the spaghetti strap.
3. With right sides together, line up the raw edge of the spaghetti strap with the knife on the serger.
4. Before serging, insert the long chain inside of the spaghetti strap making sure to keep the chain to the far left - away from the knife.
5. Serge the entire raw edge of the spaghetti strap.
6. Remove spaghetti strap from machine.
7. Gently pull the chain stitch, and feed the right side of the spaghetti strap through.
8. Press.

That's it! This is a simple way to make straps of any size. One tip, if the spaghetti strap is real narrow take sure to use a slippery fabric like charmeuse or satin.
