## Tips for getting accurate measurements:

- Wear a well fitting bra, or the bra you plan on wearing under the garment you are making. There can be a large size difference between wearing a sports bra, regular bra, bralette, push up bra, or no bra at all.
- Relax and don't suck it in. We want to choose the right size that is comfortable and easy to wear.
- Try to wear a tight top and leggings when measuring to get close to the skin.
- Do not add ease or slack when measuring. Make sure the tape measure is taut.
